BOY SCOUTS TO HAVE PROGRAM AT SACRAMENTO

Twenty-sixth District American Legion To Sponsor Affair At Fair Grounds

H. G. Watters, chairman of Americanism Commission for the Department of California of the American Legion, will be in charge of the state program for Boys State at the fair grounds in Sacramento and has worked out a splendid program. W. W. Hamilton, Belmont Post No. 377, is chairman for Boys State, appointed by the Twenty-sixth District of the American Legion to organize the program in San Mateo County and reports enthusiastic support from his committee and the various high school principals so far interviewed.

The Boys State program is best defined as the American Legion's laboratory of practical political science. Learning by doing is the secret to the success of this project. It is purely an educational project. In brief it is designed to instill into young men of junior and senior high school enrollment a practical working knowledge of the structure of government.

The Twenty-sixth District of the American Legion (composed of all legion posts in the San Mateo County), will sponsor boys of junior or senior grade who rank highest on a questionnaire designed to select representative boys from all high schools in San Mateo County who best fit the requirements for Boys State enrollment.

All boys who qualify, including alternates, will be notified by the committee on Boys State appointed by the Twenty-sixth District of the American Legion not later than May 20 of their selection.

All boys selected will represent the Twenty-sixth District of the American Legion at the state wide session of Boys State, held at the State Fair Grounds at Sacramento, opening Sunday, June 26 and closing Sunday, July 3. The opening day will be devoted to enrollment, physical examination, assignment of quarters and a general assembly. The remainder of the week will be devoted to organizing and conducting city, county and state governments in which the boys themselves select their own candidates, their own voting and conduct on their own initiative the various duties of all government officials.

R. L. Crane Jr., district superintendent for the Jefferson School District, Daly City, and member of the committee on Boys State for the Twenty-sixth District, American Legion, gave a short talk on the Boys State program before the Seventeenth Annual Asparagus Festival, on Thursday of this week in the San Mateo Theater, San Mateo, California.

ASPARAGUS WILL REIGN AS KING OF ISLETON SHOW

History Of This Colorful Region Will Be Portrayed In Pageant

The Dream of the Delta, a pageant in which 300 children will depict in song and dance the history of the Sacramento and San Joaquin Deltas, will be a feature of the Sunday afternoon program of the Thirteenth Annual Asparagus Festival, scheduled for May 21 and 22.

The story starts with the Indian tribes of the Delta, the coming of fur trappers, and then the farmers. The arrival of Chinese, Japanese and other nationalities to the Delta will be pictured on a large outdoor stage. Planting of orchards, asparagus and other Delta crops will also be depicted in a colorful manner.

Costumes, beautiful in design and color, will clothe the children who will parade before festival visitors in song and dance typical of the different eras which they will represent.

The pageant will be typical of those for which the Isleton Asparagus Festival has become noted, and will be more interesting and picturesque than in former years.

Organizing of the pageant is being consummated by teachers of the Isleton Grammar School.

25 DEAD, 13 MISSING IN ATLANTA, GA., HOTEL FIRE

Sweeping through the Terminal Hotel with alarming rapidity, fire recently took a toll of 25 lives as more than a dozen were registered as missing. Some 10 or 15 persons were rescued or leaped to safety shortly after the fire broke out. A high wind fanned the flames, rendering firemen and fire fighting apparatus helpless to bring the blaze under control. After the fire had consumed the interior of the building, leaving only the walls standing, firemen and rescue workers searched the charred ruins for bodies. Photo shows the body of one of the victims being lowered from one of the higher floors.

FOUR AUTOS IN MANY ENTRIES HIGHWAY CRASH FOR TOP STAKE AT HOME TRACK

Northbound traffic in the Bayshore highway was tied up for almost a quarter of an hour Saturday evening of last week at 6:20 o'clock, when four cars were involved in a series of rear-end accidents and two motorists injured.

Mrs. Ada Mae Jones, 1721 Versailles street, Alameda, suffered a neck injury and possible back injuries when the car driven by her husband, Earl Jones, was involved in the accident. Samuel Ramsey of Menlo Park, driver of another car, suffered cuts and bruises in the crash.

The accident occurred one-half mile north of South San Francisco when Edith Wilkinson, 1770 Lombard street, stopped to allow a car to cut into the north bound traffic.

Donald Ribbero, 2253 Franklin street, San Francisco, also stopped his car, but the next two autos, driven by Jones and Ramsey in that order, failed to stop, bumping the other two machines.

LIGHTS VITAL TO BICYCLE SAFETY

Lights are vital to safe bicycle riding at night. A flashlight clutched with the grip is not enough. Good electric and oil lights are available which will illuminate the road for some distance and make the bicycle visible.

Probably the best arrangement for the rear is a good red reflector. The small "jewels" offer practically no protection. Reflectors should be at least two inches in diameter and scientifically designed to make them visible from a distance of 500 feet by the headlights of an approaching vehicle.

Light colored clothing also helps motorists to see you. The white handkerchief tied on the arm as practiced by boy scouts helps in an emergency.

Keep to the right, close to the curb—obey all traffic rules—never carry any one on your bicycle—avoid crowded streets and highways.

This good advice is taken from a bulletin for bicyclists issued by the National Safety Council. Copies can be obtained from the office of the County Traffic Safety Commission—San Mateo County Traffic Safety Commission.

High Class Steppers To Compete In Marchbank Handicap At Tanforan

Twenty top ranking thoroughbreds have been nominated for the annual Tanforan Spring classic—the \$15,000 added Marchbank Handicap. This mile and an eighth fixture, which has its third running here June 4, has in two short years established a position of unquestioned prestige on the Western turf. It was named in honor of John W. Marchbank, owner of Tanforan and one of America's foremost breeders.

Indian Broom rocketed to national prominence when he captured the first Marchbank Handicap in 1936, breaking the world record for a mile and an eighth and hanging up the standard which still stands—1:47 3-5. Seabiscuit won the second running last year, uncorking one of the finest efforts of his sensational career. He was to have been readied for the Marchbank Handicap this year, but in the meantime the War Admiral match race took him to New York.

Indian Broom, however, is training splendidly for another try at the rich encounter, and his prowess in the West has been firmly established

McGrath, on whose order the machines were dismantled; Harry Weeded, member of the grand jury; and Hugh Williams and Louis Lodi, deputy sheriffs.

According to the sheriff, \$579.75 was taken from the machines, most of which were new.

ACTIVITIES FOR SPRING TERM OF JUNIOR COLLEGE

Baseball, Tennis And Track Now Occupy Attention Of Students

With the near approach of the June commencement, San Mateo Junior College students are beginning to end some of the spring term's activities. Boxing, wrestling and crew have been completed. Baseball, track and tennis are ending their schedules.

With Noah Curti of South San Francisco and Cliff Johnston doing some creditable pitching, San Mateo won two league baseball games from Placer Jaycees and this Saturday will go to Modesto for a double header there. One other game with Sacramento will end the season.

The Junior College tennis players defeated the barnstorming Humboldt State players on the Matean courts in a recent series. Last season the Mateans went to Humboldt for the matches.

The track men scored 15 points in the West Coast Relays at Fresno last week end against some of the toughest of competition and will practically end their season by taking part in the Junior P. A. meet at San Jose State when the Mateans will face bay area squads.

The Junior College has made an informal application for a government loan to build new junior college buildings. Later, if congress approves such loans, the request may be made formally. The obtaining of such funds would result in the building of a fine junior college, with the money being paid back at low interest rate.

The junior college board is now considering the bids offered on its first new building on the new campus.

Dr. J. A. Saxon, president of the American Association of School Administrators, will speak at the junior college on the evening of June 6. He is also president of the California Teachers Association.

ONE DOESN'T QUARREL WITH RELIGION

(Reprinted from the Vancouver Sun)

The threat of Hitler's German Government to retaliate upon the Holy See for the Pope's very noticeable absence from Rome upon the occasion of Hitler's visit there and for are papal protest against the plastering of Rome with crooked crosses indicates pretty plainly that Hitler is preparing to bite off a bit more than he can chew.

The impassioned Fuehrer may march into the Saar and break open the provisions of the Versailles Treaty, which every reasonable man had already admitted were foolish and unjust.

He may torment and bedevil the Jews and thus earn the suspicion and dislike of every civilized nation on earth. He may walk into Austria, himself an Austrian, and incorporate that little country into the greater German Reich.

All these things he may do and some of them with impunity because it requires neither brains nor courage to bully those whom circumstances have made weak in physical resources.

But when he comes to deliberately pick a quarrel with religion he displays the pert audacity of the mountebank who has not sense enough to know what he is doing.

For history, any history, shows abundantly that those who set themselves up to oppress the church always come out on the losing end of the battle.

We make no pretense at ascribing any miraculous qualities to the Roman Catholic faith in making this statement. The same thing is equally true of any sect or denomination.

The plain fact is that everybody, sooner or later, comes to repose a fundamental faith in and respect for some religion.

To attack religion, therefore, is to attack a basic factor that lies dormant or active in the nature of every human being.

A blow at religion—any religion—is a blow at the fundamentals of life.

One either takes religion or leaves it alone.

But only a fool—in Hitler's case an impetuous and fatuous fool, hell-bent on his own destruction—chooses to quarrel with it.

ROCKAWAY BEACH PEDRO VALLEY

By C. H. T.

A small boy trudged home one recent Sunday afternoon, carrying in triumph three big trout, the prize for a couple of hours' fishing in Pedro creek. They were beauties, and the young fisherman displayed his catch to his dad with considerable pride. "But, Dad," he complained, "this outfit of mine is an awfully poor one. You ought to see the fine poles and flies the men had who fished at the creek. They had just about everything. All the latest gadgets sportsmen can buy. Why can't I have a fishing outfit like those, Dad?" The parent shook his head. "Billy, I've lots of other things to do with my cash than buy you expensive doodads for fishing." "But please, please—" Billy begged. "See here, Billy," the father said idly, "you caught three big trout. How many did the other fellows get?" Billy grinned. "Not a one while I was there."

The Fred Bohr house is being painted, though, to tell the truth, it never looked as if it needed painting. Always fresh looking and well cared for. The first coat, dead white, is already on, and the big building resembles a ghost when night comes and the moonlight shines on it. The flowers on the upper terrace gardens are in full bloom, and a handsome sight.

Yellow marigolds springing from a grassy roof is the extraordinary and artistic decoration of the William Johnson home on Pedro terrace. This pretty house and garden is a decided asset to the neighborhood.

Peter Hugaard of Shelter Cove spent part of last week at Salinas on business.

The new addition in the Nielsen house is now completed, and the family find it a comfortable convenience.

Mrs. Jennie Bicknell drove over to Pedro from her "home town," Rockaway Beach, one day last week.

Pat Dempsey borrowed a gun, with the intention of shooting an unwanted dog of his own, a big dog that seems to have a natural-born talent

for getting into fights with other dogs. So far, so good. But Dempsey found that he simply couldn't do it. He is too fond of the dog. So, one by one, he chose friends in his locality, to use the gun on the dog. They all refused. Then up spoke Bill Murphy, who used to be a bar tender at the Danman place. "Why destroy the dog?" "That's an idea," Dempsey said, if you know anyone who wants to keep him." "I do," Bill announced. "He's a grand dog. I can't let him die. I haven't any place in the world to keep the dog, but I'll park him with Jim Stuart until I find some place for him." So, very much relieved, the owner of the dog returned the borrowed gun, and figuratively washed his hands of the canine. Up to date, we have heard nothing more. But no one can deny that Mr. Dog has friends, and Bill Murphy certainly went to the bat for him.

Some weeks ago the Stuarts lost one of their fishing boats, when it broke loose and drifted out to sea. Though the lost boat was searched for, and coast dwellers urged to be on the lookout for any sign of it, nothing was ever heard of it. A second boat, belonging to Andy Anderson and anchored off Pedro beach, was battered by the sever storms that swept this region over a month ago. It dragged anchor, finally going on the rocks and breaking up, a total loss. It is reported that this loss of his boat so discouraged Anderson that he dissolved his partnership with Jim Stuart and went to San Francisco to engage in some other business. It was after this that Jim Stuart decided to build a boat, since buying one was too expensive. He called to his aid, a neighbor, Mr. Spink. Neither man had ever built

Nine Found Dead On Wrecked Plane Near Burbank, Cal.

Charred and twisted wreckage of a Lockheed airliner was recently found on the side of Mount McDill, near Saugus, Cal., with all nine occupants dead. The giant liner was en route from Burbank, Cal., to St. Paul, Minn., for delivery to the Northwest Airlines. According to observations made by aviators, the huge plane was flying low in a thick fog and the pilot was unaware of an impending crash because the motor switches had not been cut off. Gasoline tanks had exploded when the transport plunged. Photo shows first rescue party to reach the scene of the disaster.

a boat, so it is said, yet the two of them, after working steadily for several weeks, turned out an A No. 1 boat. Stuart declares that this is the best craft he has ever owned.

The Catheys are said to be planning to add another room to their house in the near future.

Harry Rees left last week for Caliente, Mexico, taking along with him two horses, the racing horses, "Johnny Hills," and his daily pal, "Mike" for company. Malcolm, Johnny's trainer, is an important member of the party.

Jay E. Robbins, bus driver on the new coast road, is a general favorite among his travelling public. He knows all their names, and at just what corner in a village, or what kink in the road each passenger wants to get off. Here's a collective "thank you!" to him. We appreciate his kindness.

Captain "Sandy" Smith, famous Alaskan explorer, is visiting in this neighborhood, at the home of M. S. Johnson and niece. He is credited as declaring that the scenery hereabouts equals that to be found anywhere in America. It was of him that a reviewer said, writing of his important discovery in a national magazine: "Whenever Captain Smith comes down from one of his expeditions, the map of the North changes!"

Ted Bailey of Rockaway Beach, has been appointed sheriff at the new rehabilitation camp near Sharp's Park (Salada Beach). Dr. W. Shawk, genial physician at Rockaway, is reported as having been offered the position of camp doctor, a post he was obliged to refuse on account of impaired eyesight. Dr. Shawk was formerly superintendent on an Indian reservation in Montana.

SALARY RAISES BEING GIVEN CONSIDERATION

The San Mateo County Board of Supervisors and Executive E. A. Rolison, Wednesday of this week, started consideration of the 1938-39 salary ordinance for appointive officials.

Tentatively approved, it was announced, were budget requests which asked no increases from last year. They were from the following departments: Coroner-public administrator, board of education, county executive, Memorial Park, supervisors, courts, and the county library. Decreases from last year's requests were shown in tentative budgets for

the relief home, \$120 under last year's figures; the health department, \$1060 less than a year ago, and the recorder's office, \$50 lower.

The board was busy with details of a new WPA application for the \$200,000 courthouse annex. It was decided to seek new bids for the proposed \$3000 juvenile remodeling contract. Only bid submitted yesterday was \$1000 higher than the county's appropriation. New bids will be opened June 21.

New Building To Be Under Way Soon

Construction will be under way soon on the new science building for San Mateo Junior College to be located on Delaware street near San Mateo High School. Contracts totaling \$240,890, representing reductions over original bids, have been awarded by the board of trustees.

BIG FEATURE OF GILROY ROUNDUP WILL BE RACING

Contestants In Events Limited To Residents Of Ten Counties In Northern California

Races will play an important part in the forthcoming Gilroy Roundup and Gymkhana scheduled for Sunday and Monday, May 29 and 30. With relay races, pony express races, and free for all races on the Gymkhana track program, followers of this part of the rodeo have a real treat in store for them.

Gilroy's ninth annual celebration has limited the eligibility of contestants to bona fide residents of the following ten counties: Santa Clara, San Mateo, San Benito, Santa Cruz, San Francisco, Monterey, Merced, Stanislaus, San Luis Obispo and Alameda. This in no way alters the caliber of the contestants, inasmuch as the contest is "open" to any resident of the above ten counties whether he be professional or non professional.

The management feels that by so limiting the contestants, it will give the real ranch cowboys a chance to compete with their "compadres" in the various thrilling and spectacular rodeo events.

The largest number of specialty events ever contracted for the Gilroy Gymkhana have already been booked, and it is claimed that this year's roundup will reach a new high from a spectator's standpoint.

Organizations in the county are showing a splendid spirit of cooperation to effect prompt establishment of a Youth Hostel chain.

The San Mateo Junior College Hiking Club, under the direction of Miss Eleanor Ginno of the Physical Education Department, volunteered its services to mark all the Hostel trails in the county. They started out this morning, clad in jeans and armed with white paint and brushes, to paint small, neat, white triangles to mark backroads leading to the three Hostels of the county.

From Montara Hostel, the trail will follow the beach and road to Half Moon Bay. Hikers were to arrive here in time for lunch. Then up the Higgins Creek road, winding around the hills, and suddenly dropping down into Purissima Canyon to the Hostel at the Pimentel's ranch. The trail continues up the creek, through the redwoods to the Skyline, following the fire road. From the Arata Hostel, on the Skyline, the trail takes the Bear Gulch Road to Woodside, where Hostellers can either continue on to the Hostels in Santa Clara County, or take a bus back home.

Busy First Lady Tells Of Hobby

The First Lady is fond of reading and is looking forward to the day when she may retire and devote more of her time to her favorite diversion.

Recently Mrs. Roosevelt made a confession, that her first reading had been "the very, very, sentimental Elsie Dinsmore series." Her present spare moments are busily occupied in the perusal of her mail.

BRISBANE

A GOOD PLACE TO LIVE!

BRISBANE GENERALITIES

After our visit to the city of Los Angeles—the seaport situated 18 miles from the sea—we are glad to get home and resume our duties.

May we express our appreciation to Mrs. Ruby Nunn for the way she carried on this column for the past two weeks.

Mr. and Mrs. Thad Cartner are due back in Brisbane today from their visit to Pomona.

Our local election is coming up. We hope that there is more interest shown in Brisbane than in the Fire Commission election. You know, folks, the school board decides the policies of both Brisbane and Bayshore. They work for your children. Mrs. Ethel Jonas is running for office. Her opponents are Jack Wheeler and John Ham. May the one best fitted for the office win.

Mrs. Russell Calahan is the proud mother of twin girls. All are doing well. Unless we are mistaken this is the first time twins have been born in Brisbane.

Linwood Blair was the first purchaser of the new air mail stamp. Have you seen them?

The Veterans of Bayshore are again coming over to Brisbane for the meeting. It is rumored that the Coastside Post are playing host to our boys for a barbecue.

Mrs. Elizabeth Blight, of Long Beach, Calif., is visiting her niece, Mrs. Earl Wertz. She will be here for several weeks.

Mr. and Mrs. Ferguson were in San Francisco last Wednesday evening at an engagement party for Miss Wanda Poor.

Mrs. Gergeous has been in bed for a few days. We are glad to see her up and around again.

We will have to find some competition for our friend Mr. Rhode. At the rifle shoot last Sunday he won three of the four chickens.

The Community Church is again sponsoring the vacation church school. It is expected that their new building will be ready for occupancy in time for the school. The date is June 13 to 24 every day from 9 to 12 except Saturday and Sunday.

John Ham is now a Brisbane resident, and is buying his home on Lake street.

NEW AIR HORN PUZZLES COLMA

People in the Colma district were greatly puzzled, Wednesday of this week, by the new air horn which has been installed there by the Daly City Fire Department for fire alarm signals. Its initial tryout was a pronounced success.

The horn is part of the equipment in the extension of fire alarm service which has just been completed in that district and is now ready for service.

Numbers of the new boxes and their location are as follows: 611 Jefferson Elementary School, 612 San Pedro road and the S. P. tracks, 613 Market and Mission streets, 614 Vale street and Werner avenue, 615 Junipero Serra blvd. and School street, 621 W. Cavour street between Bruno and Station avenues, 622 W. Other toplineers in the engagement include Wichsee, Gosum, Star Shadow, Sir Oracle, Patty Cake, Grim Reaper, Sweepalot, Woodberry, Warfellow, Noble Count, Advocate, Count Atlas, Rommy and Wing and Wing.

Seasoned, at Least

When Bob Burdette was addressing the graduating class of a large eastern college for women, he began his remarks with the usual salutation, "Young ladies of '97." Then, in a horrified aside he added, "That's an awful age for a girl!"
